What is Informative Website?

An Informative Website is a type of website designed primarily to provide valuable information to its visitors. Unlike e-commerce or social networking sites, the main focus of an informative website is to educate, inform, or offer insights on a particular topic, service, or industry. These websites typically feature content such as articles, blogs, FAQs, guides, tutorials, and other resources that help users learn more about a subject or stay updated on industry trends.

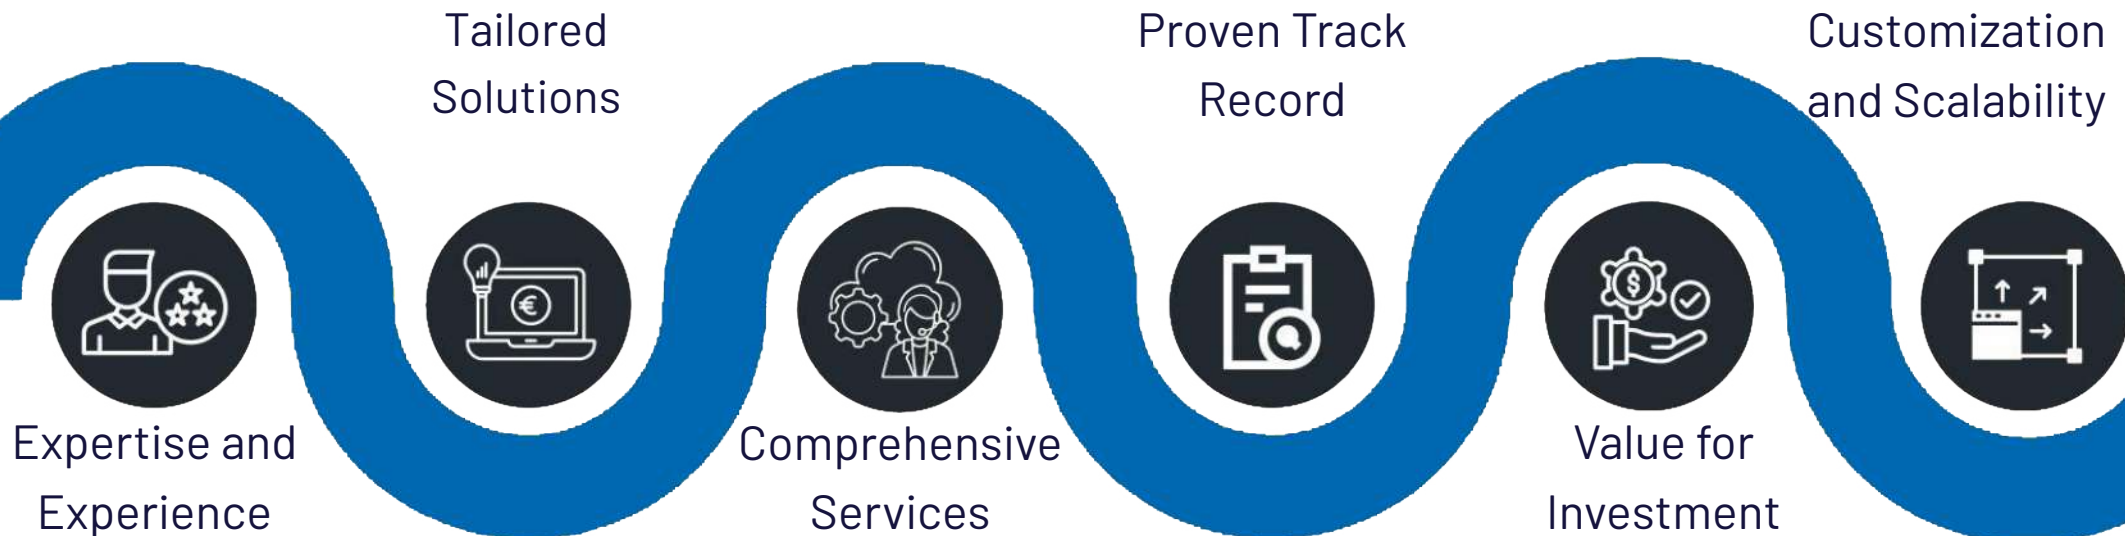

Why Choose **Customised Informative Website?**

Here's why it's essential:

- ✓ **Tailored Design and Functionality:** A customized website allows you to create a design that aligns perfectly with your brand's identity, including specific colors, logos, and style.
- ✓ **Better Performance and Optimization:** Custom websites can be designed with SEO best practices in mind, improving your search engine rankings and visibility capabilities.
- ✓ **Scalability and Flexibility:** Custom websites can be designed to accommodate future growth and changes, making it easier to add new features or expand as your business grows.
- ✓ **Enhanced User Experience:** Ensure your website performs well across all devices and screen sizes, tailored to your target audience's usage patterns.
- ✓ **Increased Security:** Custom websites can incorporate specific security measures tailored to your business needs, reducing the risk of vulnerabilities present in generic templates.
- ✓ **Competitive Advantage:** A custom website helps you stand out from competitors who might be using the same templates and features.

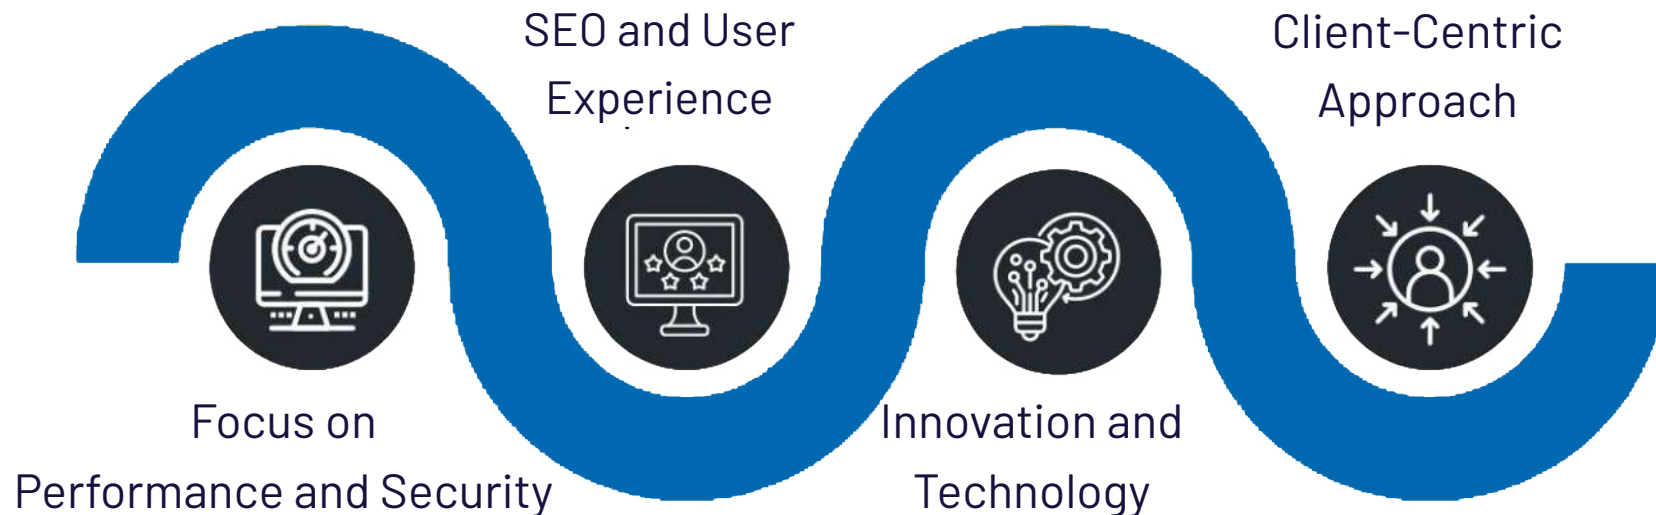

Why Choose **Shrinathji Group** for **Customised Informative Website Development**?

Shrinathji Groups offers expertise in creating tailored websites that not only look great but also provide your audience with the information they need, exactly how they need it. Our approach is client-focused, ensuring that every website we build is a true reflection of your brand, aligned with your business goals, and optimized for user experience.

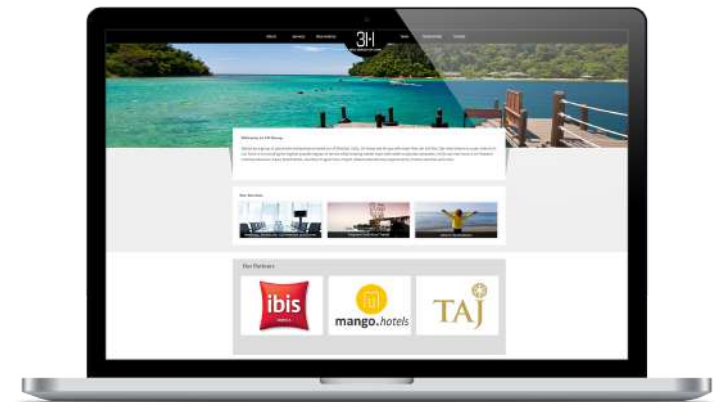

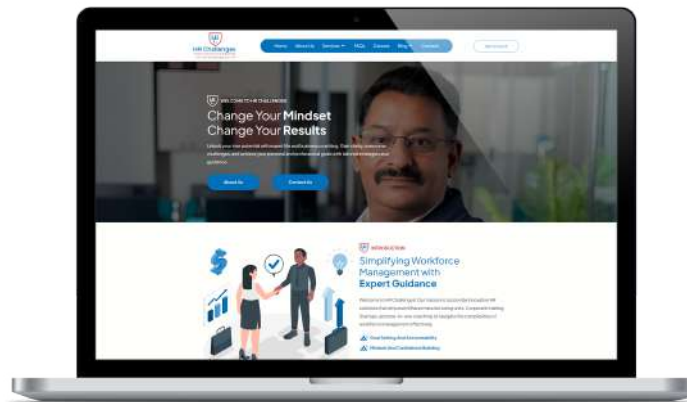

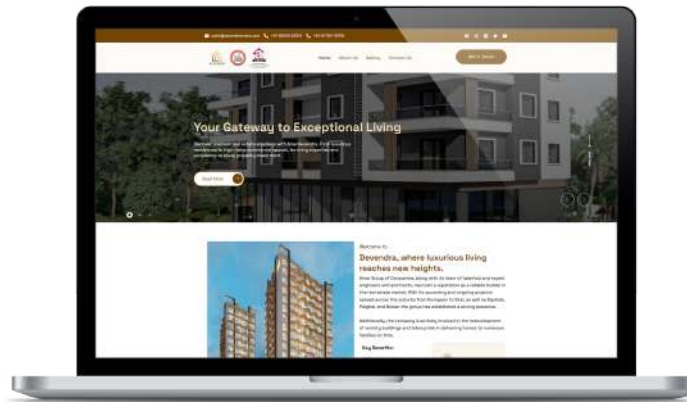

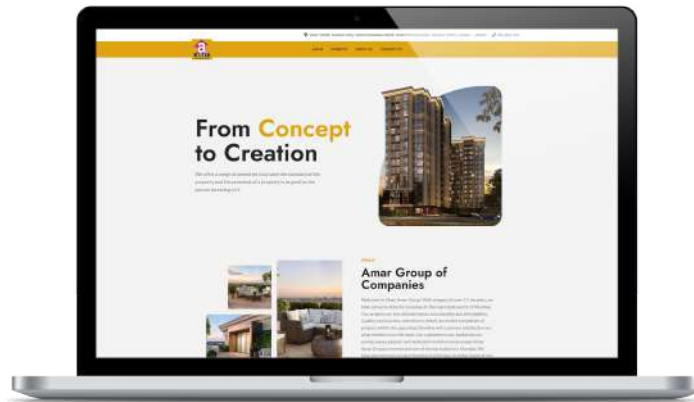

Why Choose **Shrinathji Group** for **Customised Informative Website Development**?

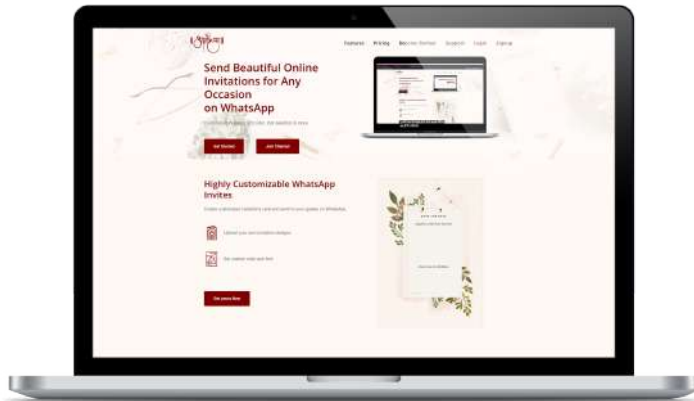

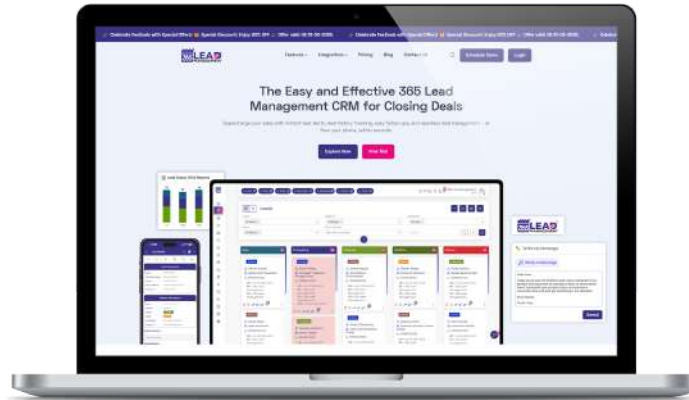

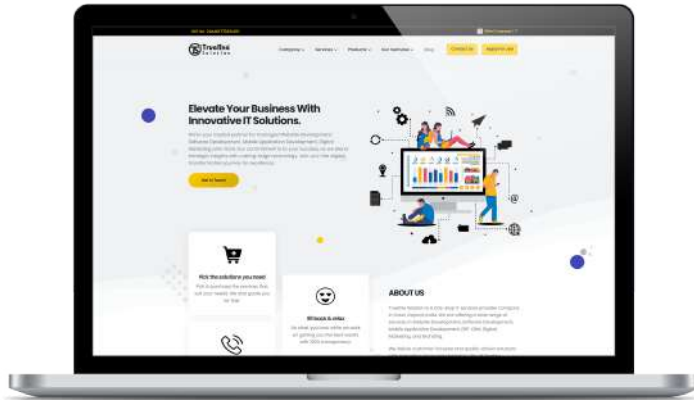

At Shrinathji Groups, we specialize in creating robust, scalable, and visually appealing WordPress websites tailored to your specific needs. Our team of experienced developers is committed to delivering high-quality solutions that not only meet but exceed your expectations. With a focus on performance, security, and user experience, we ensure that your website stands out in the digital landscape.

Terms & Conditions

All terms and conditions will be clearly defined in the contract to establish a solid foundation for our partnership.

- The service provider will design, develop, and deliver a custom informative website based on the client's specifications. The scope includes designing the website structure, integrating content, and ensuring the website is responsive and user-friendly.
- The contract is set for 1-2 Months, beginning on the project start date. The timeline for the project will be mutually agreed upon before work commences.
- Payment will be 60% in advance before the start of the project, with the remaining 40% due upon 75% completion and before the website is delivered. All payments are non-refundable once the project has started.
- All website requirements must be provided by the client in either audio or document form. Any additional requirements communicated in formats other than audio or document will be considered new requirements and may require a separate agreement, potentially affecting both the timeline and cost.
- The website will include up to [X] pages as per the agreed-upon structure. Content, images, and other media must be provided by the client in a timely manner. Delays in content provision may impact the project timeline.
- The service provider will present a design draft for approval.

Terms & Conditions

All terms and conditions will be clearly defined in the contract to establish a solid foundation for our partnership.

- All changes and suggestions from the client must be communicated within the designated WhatsApp group. Any personal chat communications will not be accepted as valid change requests.
- Any requests for additional features or changes outside the initial project scope will require a separate agreement and may affect both the timeline and cost.
- The client is responsible for obtaining and managing the hosting account and domain name. The service provider may assist in setting up these services but is not liable for any third-party charges.
- The service provider will integrate any requested third-party tools, such as contact forms, maps, or social media links. The client is responsible for any fees associated with premium third-party services.
- Upon full payment, all custom design work, code, and content become the property of the client. The service provider retains the right to showcase the website in their portfolio.
- The service provider is not liable for any issues or damages resulting from client-side actions after the website has been handed over. This includes but is not limited to unauthorized changes, misuse of admin access, or incorrect configuration of third-party integrations.
- Payments are non-refundable once work has begun. Any unused service credits will not be refunded.

In Summary

Choosing Shrinathji Groups for your informative website development means partnering with a team dedicated to delivering a customized, user-friendly platform that effectively communicates your brand's message and engages your audience.
